Supplier Performance

Suppliers should keep Purchasing advised of any changes to their remittance address or ownership, and supply the City with an updated W-9 when such changes occur.

Delivery Dates: Failure to meet a specified delivery date reflects on your performance and could be a factor in subsequent award determinations. It is the supplier's responsibility to notify the Purchasing Division when a delay in the delivery schedule is anticipated or occurs. At this time, the supplier should indicate the new anticipated delivery date and the reason for the delay. It should be noted that failure to deliver within a contractual delivery schedule may result in the supplier being declared in default. In that event, termination action will be taken by the City under the provisions of the Uniform Commercial Code and the State of Texas.

Quality and Service: Unsatisfactory product quality or service performance also reflects on a supplier, and could be a factor in subsequent award determinations. Such performance can increase the City's operating costs and must be taken into consideration when awards are made.

Performance and Payment Bonds: If a contract is for the construction of public works and is required to be submitted through the competitive process, the successful respondent must execute the following bonds: a performance bond if the contract is in excess of $100,000; and, a payment bond if the contract is in excess of $50,000. The amount of the performance and payment bond required will be identified in the specifications.

Cooperative Purchasing

The City of New Braunfels has executed Interlocal Purchasing Agreements with several local entities that does allow for Cooperative Purchasing of selected items. The City relies on its cooperative partners to pool our purchasing power to increase the value of our citizen’s tax dollars and improve the efficiency of the services provided.

The City may “piggyback” on contracts established by governmental jurisdictions or approved cooperatives. Vendors willing to extend to the City existing price agreements with other governmental entities or cooperatives should notify the City’s Purchasing Division.
