REQUEST FOR PROPOSALS (RFP)
FOR CONSTRUCTION MANAGER-AT-RISK SERVICES
FOR FIRE STATION #5 RENOVATION

SECTION 1 - GENERAL INFORMATION

1.1 PURPOSE OF RFP

1.1.1 The City invites the submittal of responses to this RFP from firms who can adequately demonstrate they have the resources, experience, and qualifications necessary to provide Construction Management-At-Risk (CMAR) services for construction of the Fire Station #5 Renovation for the New Braunfels Fire Department (the “Project”).

1.1.2 The RFP provides the information necessary to prepare and submit Proposals including fee proposals and general conditions prices for evaluation and final ranking by the City. After evaluating the Proposals, respondents may be requested to attend an interview with the City to confirm their Proposals and answer additional questions. The City will then rank the proposals submitted by respondents in order to select the respondent offering the “best value” to the City.

1.1.3 The City is seeking a project team approach to construction management with a focus and commitment to achieving design and construction excellence. The CMAR will provide preconstruction services in cooperation with the Architect of record. Subsequently, the CMAR will negotiate a Guaranteed Maximum Price (GMP) for the construction phase of the work. A Construction Management at Risk project delivery method will expedite the Project to market and can also strengthen coordination between the Architect and the CMAR. The collaborative effort between the City, the CMAR and the Architect will create enhanced synergies throughout delivery of the Project. The successful CMAR will assemble a team that is experienced and technically proficient to work collaboratively with the City staff, other consultants, and stakeholders.

1.2 PROJECT DESCRIPTION AND LOCATION

The Project consists of improvements to the City of New Braunfels Fire Station #5, located at 1250 W County Line Road in New Braunfels, Texas. Improvements include the construction of an addition of approx. 1,100 GSF. The addition is planned to include a space for the maintenance and storage of protective gear, a weight training room, a tool shop, and laundry facilities.

Improvements also include select renovations to the existing 4,355 GSF facility. Renovations include improvements to existing restroom and shower facilities, along with updated fixtures and finishes in staff support areas (kitchen and day room.) The apparatus bay is planned to receive limited improvements to address localized foundation settlement, and the repair or replacement of overhead doors. Updates to building systems (electrical, HVAC, emergency systems) are anticipated.

The existing site will also receive limited improvements. A secured, fenced area will be created for employee parking at the rear of the station, along with a dumpster enclosure. Paving repair and expansion is also anticipated for vehicular access, site accessibility, and parking.
1.2.1 Estimated Construction Budget:

The total budget for the Project is estimated at $1,641,000.00, which includes all costs of construction.

1.2.2 Project Architect

- Architect - RVK Architecture
  2002 N. Saint Mary’s Street
  San Antonio, TX  78212

1.3 OTHER BACKGROUND INFORMATION

It is desirable to limit the amount of time during construction when the existing station cannot remain in operation by the New Braunfels Fire Department. Construction of the building addition is planned to occur while the station remains operational. When interior renovations are underway and access throughout the facility becomes constrained, departmental operations will be relocated to another facility. Furthermore, limited space on site will constrain lay-down areas and other means of staging throughout construction.

The driveway along the western edge of the property, which provides vehicular access to the rear of the facility, is owned by the New Braunfels Independent School District, and is available to the station on a shared-use basis. The driveway accommodates vehicular traffic (primary school bus) to the adjacent elementary school, County Line Elementary. Unimpeded access to this driveway must be maintained at all times; if warranted, special coordination with New Braunfels Fire Department and representatives from the New Braunfels Independent School District may be considered.

1.4 AVAILABLE DOCUMENTS

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

** Workers in this classification may be entitled to a higher minimum wage under Executive Order 14026 ($16.20) or 13658 ($12.15). Please see the Note at the top of the wage determination for more information.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at https://www.dol.gov/agencies/whd/government-contracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).
Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date.
for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

----------------------------------------------------------------

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

* an existing published wage determination
* a survey underlying a wage determination
* a Wage and Hour Division letter setting forth a position on a wage determination matter
* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour National Office because National Office has responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the
interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

   Administrative Review Board
   U.S. Department of Labor
   200 Constitution Avenue, N.W.
   Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

i. It is expressly understood and agreed that the insurance coverages required herein (a) represent Owner Parties' minimum requirements and are not to be construed to void or limit the Contractor's indemnity obligations as contained in this Agreement nor represent in any manner a determination of the insurance coverages the Contractor should or should not maintain for its own protection; and (b) are being, or have been, obtained by the Contractor in support of the Contractor's liability and indemnity obligations under this Agreement. Irrespective of the requirements as to insurance to be carried as provided for herein, the insolvency, bankruptcy or failure of any insurance company carrying insurance of the Contractor, or the failure of any insurance company to pay claims accruing, shall not be held to affect, negate or waive any of the provisions of this Agreement.

ii. Failure to obtain and maintain the required insurance shall constitute a material breach of, and default under, this Agreement. If the Contractor shall fail to remedy such breach within five (5) business days after notice by the Owner, the Contractor will be liable for any and all costs, liabilities, damages and penalties resulting to the Owner Parties from such breach, unless a written waiver of the specific insurance requirement(s) is provided to the Contractor by the Owner. In the event of any failure by the Contractor to comply with the provisions of this Agreement, the Owner may, without in any way compromising or waiving any right or remedy at law or in equity, on notice to the Contractor, purchase such insurance, at the Contractor's expense, provided that the Owner shall have no obligation to do so and if the Owner shall so do, the Contractor shall not be relieved of or excused from the obligation to obtain and maintain such insurance amounts and coverages.

iii. This Exhibit is an independent contract provision and shall survive the termination or expiration of the Construction Agreement.

The Contractor shall maintain certificates of insurance from all subcontractors containing provisions similar to those listed herein (modified to recognize that the certificate is from subcontractor) enumerating, among other things, the waivers of subrogation, additional insured status, and primary liability as required herein, and make them available to the Owner upon request.

ii. The Contractor is fully responsible for loss and damage to its property on the site, including tools and equipment, and shall take necessary precautions to prevent damage to or vandalism, theft, burglary, pilferage and unexplained disappearance of property. Any insurance covering the Contractor's or its subcontractor's property shall be the Contractor's and its subcontractor's sole and complete means or recovery for any such loss. To the extent any loss is not covered by said insurance or subject to any deductible or co-insurance, the Contractor shall not be reimbursed for same. Should the Contractor or its subcontractors choose to self insure this risk, it is expressly agreed that the Contractor hereby waives, and shall cause its subcontractors to waive, any claim for damage or loss to said property in favor of the Owner Parties.

H. Use of the Owners Equipment

The Contractor, its agents, employees, subcontractors or suppliers shall use the Owners equipment only with express written permission of the Owners designated representative and in accordance with the Owners terms and condition for such use. If the Contractor or any of its agents, employees, subcontractors or suppliers utilize any of the Owners equipment for any purpose, including machinery, tools, scaffolding, hoists, lifts or similar items owned, leased or under the control of the Owner, the Contractor shall defend, indemnify and be liable to the Owner Parties for any and all loss or damage which may arise from such use.

I. Release and Waiver

The Contractor hereby releases, and shall cause its subcontractors to release, the Owner Parties from any and all claims or causes of action whatsoever which the Contractor and/or its subcontractors might otherwise now or hereafter possess resulting in or from or in any way connected with any loss covered by insurance, whether required herein or not, or which should have been covered by insurance required herein, including
the deductible and/or uninsured portion thereof, maintained and/or required to be maintained by the Contractor and/or its subcontractors pursuant to this Agreement. **THE FOREGOING RELEASE AND WAIVER APPLY EVEN IF THE LOSS OR DAMAGE IS CAUSED IN WHOLE OR IN PART BY THE FAULT OR NEGLIGENCE OR STRICT LIABILITY OF THE OWNER PARTIES.**

From: Carr Hornbuckle, AIA, LEED AP  
Date: December 28, 2022  
Project: Fire Station #5 Renovation – City of New Braunfels  
Project No: 21090A

Per our meetings on December 13 and December 21, 2022, we have compiled the following list of items to be accomplished at the city’s existing Fire Station 5. To maintain the $2.4M limit for total project costs, we are prioritizing items for completion.

To that end, we will continue work with your team and representatives from the City Fire Department to ensure the following improvements are listed in priority order, and also to identify those items which are necessary to be accomplished, those which are preferred, but not necessary, and any future initiatives to be considered.

We are listing items in a possible order of priority, but will number items once feedback from city officials can be provided.
